clinicians report burnout

SAFE, EFFICIENT, EQUITABLE CARE

THE POWER OF VIRTUAL PROGRAMS

- Ability to expand specialty access to underserved communities
- Improved patient throughput for faster specialty diagnosis and treatment
- Prevent patient attrition and transfers

ONSITE + TELEHEALTH	FULL TIME + PART TIME
OVERVIEW: • Fully virtual or blended onsite/virtual engagements • Flexible contracting (short-term thru multi-year commitment) to meet continuity of care expectations • Optimized plans for utilization of diverse providers with excellent clinical skills and tele-presence	OVERVIEW: • Increase use of part time schedules • Create programs to retain staff on a part-time or semi-retired basis • Combine full time and part time schedules to cover shifts
BENEFITS: • More scheduling availability for clinicians • Provides access to more talent by removing geographic barriers • Ability to offer services in more locations and situations	BENEFITS: • Provides more scheduling flexibility for clinicians • Increases access to tenured and experienced clinicians • Keeps semi-retired clinicians’ skills sharp and up to date
